

Acutonics® Level I: Sound Gates to Meridian Harmonics

This foundational class introduces the Acutonics System and is open to anyone interested in studying Acutonics. This workshop integrates well with any healing modality including acupuncture and massage therapy.

Participants explore the philosophy, cosmology, and scientific and mystical roots of Acutonics. The workshop focuses on the cross-cultural uses of sound, concepts of the human body as sound resonator, energy meridians and points as pathways for sound, concepts of the world harmonies, cellular memory, sound imprinting, and reformatting. This will introduce the student in how to work with acupuncture points, meridian pathways and areas of pain to improve health and well-being.

Students learn how to apply Acutonics precision calibrated tuning forks, using sound intervals that are based on the orbital properties of the Earth, Moon, and Sun. A wide variety of physical, psychological, and spiritual conditions are explored within the context of TCM using the extraordinary vessels, microcosmic orbit, windows to the sky, and selected points with transformational overtones.

Key outcomes:

Find acupuncture points, apply precision calibrated tuning forks, develop an understanding of the principles of 5 elements to cycles of nature, organ and meridian systems.

Learn to implement effective treatment protocols to using various acu-points.

Self-Care Workshop

Half Day Self Care Workshop

Time: 10:00 - 2:00 EST.

Acutonics® is a system of vibrational healing that is energy-based, non-invasive and similar to acupuncture. Tuning forks are applied to acupuncture and acupressure points to access the body's meridian and chakra energy systems. Forks can be used both on and off the body.

We will be working with the Acutonics® Ohm Unison Mid TF Set. Simple techniques are taught to help maintain more ease, harmony and balance in our daily lives.

For this half day workshop, we will be working with the Acutonics OHM tuning forks. This frequency is deeply grounding, and nourishing, and promotes a feeling of serenity and peace.

Students will have an opportunity to work with these tuning forks and apply them to acupuncture points.

Acutonics® draws on oriental medicine, astrology, indigenous wisdom, and music theory to create an innovative approach to vibrational medicine that has many clinical applications.
