

Higher Harmonics & The Inner Nature of Tone

This class deepens participants' knowledge of the application of intervals to unique point combinations. Students learn to balance, expand, re-entrain, and transform meridian and organ disharmonies. Participants learn to work in between the physical and nonphysical energies of the body, integrating the low, middle, and high frequency tuning forks, to access subtler vibrational states of awareness that allow deep transformation of the physical form.

This class builds on Level I teachings and expands knowledge of energy diagnostics, grids, and fields that focus on the synthesis of individual and universal attunement.

Students expand their knowledge of the Acutonics Earth Moon Set and are introduced to the **Acutonics High Frequency Earth Moon Set and the Low Frequency Earth Moon Set**, and other sound healing tools including Tibetan Bowls, bells, drums and rattles.

3-Day Class in person
